Werner & Mertz  
Professional

# Pioneer for 50 years:

Werner & Mertz Professional – A company with a vision

For more than 150 years, the family-owned Werner & Mertz has been successful in the market as an umbrella brand and European forerunner in innovations for the cleaning industry. In 1971 Tana-Chemie was set up with offerings tailored to professional cleaning services. Our established brands Green

Care Professional and Tana Professional, supported by highly qualified and motivated employees, stand for the entire company's unwavering commitment to sustainability. We are driven by our desire to make a sustainable lifestyle attainable for the majority even beyond the boundaries of our brand.

**1971**

Founding of  
Tana-Chemie GmbH

**1989**

Launch of the  
Green Care brand

**2003**

EMAS-certified production  
site in Mainz, Germany. Followed  
by Hallein, Austria in 2005.

**2005**

Erste EU Ecolabel  
Zertifizierungen

# Better across the industry:

Wherever people come together,  
our cleaning products are put to use.

Together we are on the way to becoming the European market and innovation leader in professional specialized care. In our sector we will succeed with exemplary ecological products and concepts designed and developed for the circular economy. Based on our many years of experience, we provide our customers with comprehensive, customized and integrally sustainable hygiene solutions that contribute to their success.

## Some of our major sectors:

- Public institutions
- Offices and commercial space
- Healthcare facilities
- Hotels, cafés and restaurants
- Industry
- Transportation and traffic
- Sanitary facilities and swimming pools
- Recreational facilities

**2021**  
Our Company wins EcoVadis Platinum Medal

# The one-way street is history ...

## Are we digging our own grave?

Rainforests on fire, plastic waste on land and sea, climate change and species extinction are just some of the consequences we face in managing our planet's resources. How did we come to this point? To understand that, we first have to look at how the currently predominant economic system – the „one-way street” – is leading us into a dead end.

## Take – Make – Waste

The material flow design still used today for most products is referred to as „cradle to grave”. Its focus is on the product's usage phase. Pollutants and waste generated before, during or after the production process are as unimportant as the amount of water and energy used for each production step. It is particularly devastating that both the origin and the fate of the product are ignored. Manufacturers continue relying on fossil resources such as crude oil as a source for raw materials. Products should be designed so that they can be recycled completely or used again in a new production process. Instead, many products are incinerated after their usage phase or end up in the environment when disposed of incorrectly.

## Cradle to Grave: The materials flow with no consideration given to long-term resource conservation from the source to the landfill

No consideration for long-term conservation of resources  
"One-way design": Take – Make – Waste

### All signs point to change

We are standing before an imminent collapse. Public pressure, like the Fridays for Future movement, indicates a large segment of the population has concluded that we have to change the way we handle our environment's resources. The time has come for us to make ecological change at the industrial level. Initial political measures such as the „Green Deal“, the „circular economy law“ and „AVV Klima“ show that a change in thinking is absolutely necessary.

How can we change our ways without giving up too much?  
**Genuine eco-efficiency with the circular economy.**

# ... the future belongs to the circular economy

Sustainability has taken on a much bigger role. The one-dimensional Cradle to Grave principle, however, is still applied and supplemented merely by a reduction in the use of raw materials and resources. Efficiency is improved, but no effectiveness is achieved.

## No room for compromise in a true circular economy

In the circular economy according to the Cradle to Cradle® principle, the raw materials can be reused and pollutants are thus prevented from getting into the environment. The origin and fate of ingredients are kept in closed cycles, i.e., cleaning chemicals in the biological cycle and packaging in the technical cycle.

### Formulas

We use plant-based surfactants in our sustainable formulas. They contain no critical ingredients or allergens.

## Biological Cycle

### Plant-based raw materials

We use renewable plant-based raw materials.

### Compost

Our cleaning chemicals are biologically degradable.

## Packaging

We see waste as a resource:  
Almost all of our packaging is made  
of recyclable and recycled waste.

# Technical Cycle

## Recycling

Through disposal via the European household waste collection like the Yellow Bag, empty packaging is once again returned to the closed loop of recyclable materials.

## Technical raw materials (recyclate)

Recyclate is generated by the sorting and processing of plastic waste and then used to make new, high-quality plastic packaging.

# Our Products

## Our development guidelines follow Nature's example

Our development guidelines, which form the basis for our entire Green Care portfolio, follow the Cradle to Cradle® Principle. Ever since our brand was established, we have worked at optimizing our technical and biological recycling in order to make our formulas and packaging even more sustainable.

### Green Care Professional – symbiosis of biology and technology:

- **Strong cleaning power**
- **Excellent price/performance ratio**
- **Safe for humans and Nature**

## | Formulas

In development and production, we consistently use renewable energy technology and raw materials. We continuously reduce by-products, pollutants and residues in our formulas. We also pay attention to the biological degradability of materials and exclude raw materials with negative environmental impact in compliance with EU Ecolabel requirements.

**As our formulas contain neither hazardous nor prohibited materials, they are harmless for humans and the environment.**

*Conventional product formulas*

 Crude oil-based surfactants  
 Dyes  
Fragrances  
 Water

*Green Care Professional formulas*

 Plant-based surfactants  
(tropical crops)  
 Plant-based surfactants  
(European crops)  
 Food dyes  
 Water from  
our own well

## | Packaging

In order to do without virgin plastic made from crude oil and to conserve our fossil resources, we rely on recyclate from the Yellow Bag. We refrain from using PS (polystyrene) and PVC for our packaging components.

**The recyclate share in our bottles is 100% and our bottles are completely recyclable. After their disposal, they can be returned safely to the material cycle.**

2014

2021

*In the long term we will use 100% recyclate from the Yellow Bag. Until a complete switch is possible, we supplement the material with recyclate obtained from deposit bottles.*

# 5

## Ingredients

for successful sustainability

### **Cleaning performance and quality**

We are living proof that sustainability and cleaning power are not mutually exclusive. The Green Care Professional brand stands for efficient, high performance cleaning with the highest quality requirements à la „Made in Germany“.

### **Safe for Humans and the Environment**

Safety for human life and the environment is our highest priority. Therefore, we use only harmless material that can be returned safely to biological and technical cycles.

### **Circular cleaning products**

The circular economy is the only reasonable model for integrally sustainable business activity in harmony with human life and the environment. Green Care Professional is a pioneer in a consistently practiced circular economy along the entire supply chain, from raw materials to our in-house environmentally friendly energy generation and innovative packaging.

### **Sustainable profitability**

Our brand is a role model for sustainability paired with profitability. Behind Green Care Professional is a comprehensive and consistently practiced philosophy of sustainable management. Our intelligent systems and efficient formulas make possible exact and economical dosing and complete emptying of the packaging.

### **Extensive Service**

As your strong partner, we offer you integral consulting and extensive, personalized service based on our decades of experience.

# Optimize Ecological Performance

Measure your sustainability progress with the Performance Calculator

Companies are paying more attention to their ecological footprint these days. Our Performance Calculator shows you how you can optimize your footprint with Green Care Professional.

## Your added value with Green Care Professional.

- Less carbon dioxide
- Less plastic
- Less crude oil

## Benefits for every area of application

Our Performance Calculator reports the potential reduction in your environmental impact in every application area. Use the results in bids, offers and as credible, positive PR for sustainability reports.

You can always count on us.  
Test our free Performance Calculator!  
[www.get.wmprof.com](http://www.get.wmprof.com)

## Our Sustainability Promise:

„We confirm that the savings in crude oil and carbon emissions determined by the Performance Calculator were correctly calculated for both the packaging components and the detergent formulations of all Green Care Professional products.“

*Intertechnica Cert GmbH*

# Outstanding Work for the Environment

## Certificates: Proof of our progress

Our Green Care Professional portfolio offers a broad assortment of certified products. For all areas of application we have products that have earned at least one certification. This fact distinguishes us from other manufacturers and makes clear that genuine sustainability has to be practiced in the entire company if it is to be credible. We are a pioneer in the industry with the most Cradle to Cradle® certified products and are proud that we have proof of the recyclability of our formulas and our packaging.

But this overview is not all. You can find more numerous certifications and awards of our brand on [green-care-professional.com](https://green-care-professional.com).

### Formulas

### Packaging

### Production & Supply Chain

The Cradle to Cradle® Design encompasses a detailed evaluation key to assess the materials used, their recyclability, use of energy and water and the social impact of product cycles and methods of production. Green Care Professional is the first brand with an entire professional cleaning and care assortment received the highest award known as "Cradle to Cradle Certified Gold" in 2013.

The European Ecolabel is the driving force for particularly environmentally friendly formulas for cleaning products in Europe. It incorporates all national environmental seals and sets strict requirements for environmentally friendly products. Many of our cleaning products for Europe now have Ecolabel-certified formulas.

The "Nordic ecolabel" certifies products for their environmental compatibility. Green Care Professional products that bear the Nordic ecolabel comply with its strict eco-toxicological requirements. The Nordic Swan is granted in some categories in which the EU ecolabel is not given to chemical cleaning products, e.g., dishwasher detergents.

The Österreichisches Umweltzeichen has conducted strict examinations and certified products and services that comply with its demanding standards for quality, environmental and health protection. It guarantees formulas free of hazardous substances and product design that's long-lasting, usable and compliant with standards.

Based on an audit report submitted to its Quality Committee, "Gütegemeinschaft Rezyklate aus haushaltsnahen Wertstoffsammlungen e. V." this certification serves as proof of our high recycle content in the various types of packaging, from spray bottles to canisters.

The EMAS validation stands as proof of our exemplary ecological orientation and our integrally sustainable corporate philosophy. Every year an independent auditor examines our sites' fulfillment of requirements from the EMAS regulations. It is recognized as the world's most demanding system for sustainable environmental management.

The ISO 14001 is the globally accepted and applied standard for environmental management systems. By satisfying the requirements of the international norm, our Environmental Management System ensures that we improve our environmental performance, fulfill legal obligations and achieve our environmental goals.

The ISO 50001 is the globally accepted and applied standard for energy management systems. The international norm stipulates the requirements for our Energy Management system with which we increase our energy efficiency and continuously improve our energy performance.

The Platinum medal for sustainable business from the renowned CSR/Sustainability rating agency EcoVadis places Tana-Chemie among the most sustainable companies in the world. The demanding audit encompasses 21 indicators in the four major themes of Environment, Labor and Human Rights, Ethics and Sustainable Procurement.

# Which system satisfies your requirements?

## → Speed

### Ready for Action

Our ready-to-use spray bottles for safe and fast application without measuring.

**Ready4U**

## → Price / performance ratio

### Highly Concentrated

High-performance concentrate and simple dosing options.

**Concentrate + Dosing**

## → Safety

### Efficient use

Our compact Kliks dosing system is intuitive and safe.

**Kliks**

## → Mobility

### Load cartridge and „foam spray“

Precise dosing, suitable for mobile use, clever packaging design.

**QUICK & EASY**

# Commitment leads to Change

## Acting out of conviction

„Together we are strong” – if we pursue our goals as one, we achieve more. That's why we work in many instances with initiatives, companies and cooperation partners who pursue the same goals as ours.

We all want to protect our environment, promote sustainable production and advance the circular economy in society.

---

### Our Success: The Recyclat Initiative

Microplastic in the oceans is a devastating consequence of the way we handle the flood of waste. The United Nations Environment Programme, the World Economic Forum and international bodies like the Ellen MacArthur Foundation see the solution to the problem in a closed circular economy for plastic. We do too! The Recyclat Initiative is an important step toward this goal.

#### Our Success: World record

More than 584 million PET bottles made of recyclat have been put into circulation by the Werner & Mertz Group. (As of April 2022)

[wir-fuer-recyclat.de](https://www.wir-fuer-recyclat.de)

## Green Key: The Key to Sustainable Accommodations

Hotels, youth hostels, campgrounds and all other types of accommodation require an enormous amount of electricity, water and cleaning products to handle the high number of guests. A minor change in the direction to sustainability can have many positive effects.

Green Key International certifies accommodations that use sustainable business practices. We provide Green Key with our practical Performance Calculator so organization can convince even more companies to think and act sustainably.

## Working Together for Sustainability: Our customer success stories

While others only talk about sustainability, we have consistently put it into practice with our customers. With our ecological and recyclable cleaning solu-

tions, we have already eliminated several tons of plastic, crude oil and CO<sub>2</sub> emissions. You too can become a sustainability role model!

### Ghent: shines in heroic splendor!

In recent years Ghent, the second largest city in Flanders, has worked steadily to make its municipal cleaning services sustainable and that includes the use of integrally sustainable cleaning products.

Ghent purchases products that satisfy the EU Ecolabel criteria and was the first city to introduce “Cradle to Cradle®” certified products for the cleaning of its buildings and facilities.

### Mont-Saint-Michel: Preserve the UNESCO World Heritage Site!

The two Groupe Gaulois hotels clean with Green Care Professional, making them sustainability role models. It sees the use of our eco-certified cleaning products as added value, which can be effectively communicated to the target groups.

*You can find more success stories on our Green Care Professional website.*

**Measure your sustainability progress on [get.wmprof.com](https://get.wmprof.com)**

## Healthy indoor air: Breathing healthy is essential!

The design of airtight buildings promotes sustainable, energy-efficient construction, but also requires the right choice of emission-tested cleaning products so that any negative effects on the indoor air are minimized. The independent Air Label delivers reliable results on the pollutant emissions emitted into the air by the product under normal conditions of use.

Green Care Professional is the first brand of professional cleaners to benefit from the A + Controlled Indoor Air label for professional use.

### Why good air quality is so important:

We spend 80 to 90% of our lives in closed rooms.

On average 20,000 breaths per day.

# Our Award-winning Engagement

## German Environmental Award

*„Bold decisions today will  
trigger positive interactions  
for tomorrow.“*

With these words, German Federal President Frank-Walter Steinmeier presented the German Environmental Award 2019 to our CEO Reinhard Schneider. The jury was particularly impressed by Schneider's commitment to the Recyclate Initiative and his consistent focus on the topic of sustainable management in all parts of the company.

# Extensive Service

Based on unique expertise

Our passion for cleanliness and our decades of experience in the cleaning industry make us the perfect contact for all your issues. With us you

benefit from efficient and innovative products and a complete service portfolio too. Here is an overview of our main services:

## Our Service Portfolio: For your satisfaction and efficiency

1

### Top advice

Our qualified advisors closely examine your cleaning services and help you to optimize them.

- Object files contain detailed information about your object, processes and the products you use.
- Usage technicians advise you on site.

2

### Customized concepts

When you need recommendations, cleaning or outbreak plans, we use our expertise to optimize your offers and solve your application problems.

# 3

## Competitive Advantage

Sustainability is becoming more important for society and businesses. Only those companies that can credibly convey their sustainability efforts will realize a competitive advantage. We'll help you to do just that!

- Performance Calculator to figure out potential improvement to your ecological footprint
- Certificate that proves your resource conservation with our products

# 4

## Special Know-how

We'll be happy to bring you and / or your employees up to date in the cleaning industry.

- Training programs in our Green Care Academy.  
Read about them on the next page.
- Current information from our newsletter  
Tana informs

# 5

## Technical Support

Do you have problems or questions about handling our products?

- We'll provide dosing systems at no cost via a leasing agreement
- Emergency service if dosing system fails or malfunctions

## Service info.

We would be pleased to give you information about our services or concrete details on our separate services: [info@tana.de](mailto:info@tana.de)

# 6

## Hygiene Assistance

We offer extensive services to set up and maintain first-class hygiene standards.

- On-site consulting by trained disinfection specialists
- Examination and documentation in hygiene audits
- Microbiological testing

# Trained sustainably

Master the job with specialist knowledge

In the Green Care Academy we offer you support with product training. In three different ways we ensure that your employees work safely and efficiently. Your employees remain qualified, motivated and always up-to-date.

You'll find more information about our new eLearning platform, online reservations and contact options (for questions or registration) at [www.green-care-academy.com](http://www.green-care-academy.com)

## Live Training

with personal service

In our live training you will be personally looked after by Tana-Chemie employees who have years of practical experience. We offer half and full day seminars on a variety of currently relevant subjects. Company-specific seminars conducted at your site are available upon request.

## Web Seminars

Location-independent instruction with trainer

In our Green Care Academy Web Seminars your employees can take part in courses no matter where they are. Active participation is made possible via the Chat function. Choose from our varied topics in compulsory training and continuing education. Company-specific Web seminars are available upon request.

NEW

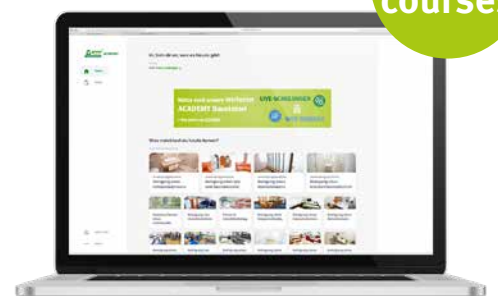

## eLearning

our training platform. Flexible, practical, understandable

With this platform available anytime and anywhere, your employees can learn the course material without classroom training. Users have access to all content, which they can call up many times, and then check their knowledge by answering some questions. Videos of practical work make the material easy to understand.

### Arguments in favor of the platform:

- We lay the foundation for your legal certainty by providing all relevant compulsory training.
- Documentation and checks of learning success
- Continuing education and practical know-how

# Building Care

## Daily Cleaning and Care

### Maintenance Cleaners

#### TANET SR 15

##### High performance floor- and surface cleaner

**Perfect cleaning results | Good wetting properties | Cost-efficient**

High-performance floor and surface cleaner based on alcohol. Ideal maintenance cleaner with outstanding environmental characteristics for the effective cleaning of all water-resistant floorings, e.g., stone, rubber, linoleum, PVC and all washable, smooth and shiny surfaces of plastic, lacquer, glass, ceramics, metal, etc.

**712479 – 1 | BOTTLE | 712480 – 5 | CANISTER**

DE/020/385

#### TANET SR 15 F

##### High performance floor- and surface cleaner

**Contains no fragrance or dye | Perfect cleaning results | Good wetting properties**

High-performance floor and surface cleaner based on alcohol, without dyes or fragrances. Ideal maintenance cleaner with outstanding environmental characteristics for the effective cleaning of all water-resistant floorings, e.g., stone, rubber, linoleum, PVC and all washable, smooth and shiny surfaces of plastic, lacquer, glass, ceramics, metal, etc.

**712605 – 1 | BOTTLE**

DE/020/385

#### TANET karacho

##### Surfactant-free all purpose cleaner

**All-purpose use | User safety | Cost-efficient**

Surfactant-free all-purpose cleaner for manual and mechanical cleaning of all water-resistant surfaces and floors, including stone, especially microporous stone flooring. Also suitable for cleaning textiles, walls and ceilings.

**712475 – 1 | BOTTLE | 712476 – 5 | CANISTER**

DE/020/385

## TANET neutral

### Neutral cleaner

**Top cleaning performance | Degreasing power | Material and skin friendly**

Neutral cleaner with optimum cleaning power to remove oily and greasy soiling. Works at economically low concentrations; very good material and skin compatibility. Can be used as hand dishwashing detergent. Pleasant scent.

712555 – 1 l BOTTLE | 712506 – 5 l CANISTER

DE/020/385

## TANET orange

### Floor and surface cleaner

**All-purpose use | Increased user safety | Pleasant orange scent**

Ecological, general use floor and surface cleaner. Leaves behind a lingering, pleasant scent of oranges. Very good dirt-holding capacity; with high material compatibility.

712477 – 1 l BOTTLE | 712478 – 5 l CANISTER

DE/020/385

## TANET alcoSmart

### High performance floor- and surface cleaner

**Good wetting properties | Low cost per use | Safe use**

TANET alcoSmart gets its effectiveness from the SMART Triple Efficiency formula: special surfactants provide outstanding wetting properties with strong dirt dissolving power and achieve excellent cleaning performance. In an innovative, sustainable bottle with integrated membrane system for safe and flexible dosing.

713473 – 1 l BOTTLE

DE/020/385

# Building Care

## Daily Cleaning and Care

### Maintenance Cleaners

#### TANET dayKliks

##### High-concentrated floor and surface cleaner

**Economical | Good wetting properties | Safe use**

Innovative formula with exclusive surfactant combination with exceptional wetting, dispersing and cleaning properties. Perfect cleaning results for floors, surfaces and glass. Leaves behind the refreshing scent of grapefruit. Kliks is a closed dosing system with sustainable packaging and high-performance products. Plastic packaging too is significantly reduced (up to 90%).

715259 – 2 l

DE/020/385

### Glass Cleaners

#### GLASS cleaner

##### Glass & window cleaner

**Powerful | Increased user safety | Streak-free**

GLASS cleaner is a pH neutral, ecological glass cleaner, particularly effective at removing all environment-related dirt deposits, greasy residue and nicotine stains. Cleans without leaving streaks and smears behind. Ready to use, based on ethanol.

712494 – 750 ml SPRAY BOTTLE | 712468 – 1 l BOTTLE | 712469 – 5 l CANISTER

DE/020/384

#### GLASS classic

##### Glass & Interior Cleaner

**Streak free | Easy application | Cost-in-use**

GLASS classic perfectly cleans and degreases smooth surfaces. It preserves glossy materials and dries quickly without leaving traces. GLASS classic has a versatile use and is very cost efficient.

712969 – 750 ml SPRAY BOTTLE | 712693 – 5 l CANISTER

DE/020/384

## Maintenance Cleaners in Quick & Easy system, Ready-to-use Cleaners

### TANET interior QUICK&EASY

#### Universal surface cleaner

##### High performance | Streak-free | Versatile

Part of the Quick & Easy portable dosing system, the highly concentrated TANEX performa Quick & Easy combines outstanding performance with minimum effort and low usage costs. With no CLP-classified hazardous ingredients, the product ensures maximum user safety. Stable, compact foam. Dries quickly without streaks or smears. can be used to clean windows. High material compatibility. Pleasant scent.

**713658** – 325 ml CARTRIDGE

AT/020/012

### TANET interior F QUICK&EASY

#### Universal surface cleaner

##### No fragrance or dye | High performance | Streak-free

The perfume and dye-free TANET interior F offers top user safety and outstanding performance. Part of the Quick & Easy portable dosing system, TANET interior F Quick & Easy stands for efficient use at low operating costs. Contains no CLP-classified hazardous substances. Stable, compact foam. Dries quickly without leaving behind streaks and smears. Can be used for window cleaning too. High material compatibility.

**714481** – 325 ml CARTRIDGE

AT/020/012

### TANET multiclean

#### Ready-to-use all purpose cleaner

##### Quick-drying | Long-lasting scent | Anti-static

TANET multiclean guarantees cleaning that's gentle to materials. It leaves no streaks or residue and maintains the cleaned surface's shine. Intense and long-lasting room-freshening scent

**715779** – 750 ml SPRAY BOTTLE

AT/020/012

# Building Care

## Daily Cleaning and Care

### Biotechnological Cleaners

#### BIOBACT clean

##### Biotechnological all-purpose cleaner

**Cleaning efficiency | Long-lasting cleanliness | Material friendly**

Biotechnological cleaner for all waterproof surfaces. Long-lasting elimination of offensive odors; leaves behind a pleasant scent. Regular use prevents new formation of organic contaminants. BIOBACT clean helps to reduce offensive smells in industrial operations, especially in areas where watery solutions are disposed of via the wastewater system.

**714707** – 1 L BOTTLE | **715237** – 5 L CANISTER

#### BIOBACT scent

##### Biotechnological odour eliminator

**Effective odor control | Long-lasting cleanliness | Material friendly**

Biotechnological odor eliminator for all waterproof surfaces and fabrics. Long-lasting elimination of offensive odors; leaves behind a pleasant scent. Varied uses in sanitary facilities, drains, trash containers and the like. No hazard labels required.

**714709** – 500 ml SPRAY BOTTLE | **714708** – 1 L BOTTLE

## Care & Maintenance

### TAWIP vioclean

#### Floor cleaner & care

**Natural soap basis | High slip resistance | Cost-efficient**

Soap-based floor cleaner and care product with exceptional environmental properties. For use with automatic floor scrubbers or for manual application. With natural coconut oil soap to protect floors from leaching effects. Tested slip resistance in compliance with DIN 18032-2. Effective even in low concentrations.

**712484 – 1 l BOTTLE | 712485 – 5 l CANISTER**

DE/020/385

### TAWIP vioclean C

#### Floor cleaner and -care

**Natural soap basis | Slip resistant | DIN 18032-2 | Cost efficient**

TAWIP vioclean C is a floor cleaner that provides extra care by leaving a protective film that prevents leaching. Its highly concentrated formula and special dosing bottle ensure perfect cleaning results at low usage concentration. TAWIP vioclean C was developed with biological cycles and the well-being of future generations in mind.

**712936 – 2 l DOSING BOTTLE**

### TAWIP novo SMART

#### High Performance Floor Cleaner & Care

**High slip resistance | Low usage costs | Safe use**

The effectiveness of TAWIP novoSmart comes from the Smart Safe'n' Shine formula: The exclusive 2-in-1 product based on coconut oil soap protects the floor with a long-lasting film. In an innovative bottle with integrated membrane system.

**713474 – 1 l BOTTLE**

DE/020/385

# Building Care

## Deep Cleaning and Care

### Emulsions and Primers

#### LONGLIFE complete

##### Ultra-performance floor polish

**Completely economical | Completely safe | Completely flexible**

High-performance dispersion system with outstanding features. Extremely resistant and durable, thanks to specially developed combination of high-performance polymers. Highly resistant to alcohol and disinfectants. Environmentally compatible formula awarded the Austrian environmental seal. User-friendly; works best in system with LINAX complete. Tested slip resistance in conformance with DIN 18032-2.

**712513** – 5 l CANISTER

#### LONGLIFE matt

##### High-performance matt floor polish

**Resistant | Matte appearance | Increased safety**

Provides alcohol and surface disinfectant resistance with a matte look for ideal floor care in healthcare facilities. Resilient, highly elastic protective film that adheres well to all types of flooring, including damp linoleum. Slip resistance tested against DIN 18032-2 criteria. Certified, with Austrian environmental seal.

**714289** – 5 l CANISTER

#### LONGLIFE polish

##### High-gloss floor polish

**All-purpose | Safe use | Cost-efficient**

Universal use of floor care dispersion without eco-toxic ingredients such as metal salt (zinc), TBEP, fluorosurfactants and fragrances. Adheres well to surfaces, polishes and restores protective film. LONGLIFE polish is a safe and durable floor polish. Tested slip resistance as per DIN 18032-2. Works best in the system with LINAX stripper. Certified, with Austrian environmental seal.

**712514** – 5 l CANISTER

## Emulsions and Primers

### LONGLIFE hospital

#### Disinfectant – resistant emulsion polish

**Disinfectant-resistant | Long-lasting | Easy use**

Dispersion with good resistance to alcohol-free disinfectants. Can be applied easily and quickly. Good leveling and low dirt absorption. Suitable for use on all waterproof floor coverings. Ideal for hospitals, healthcare facilities or nursing homes and wherever APESIN is used for cleaning.

**716038 – 5 l CANISTER**

## Basic Cleaners

### LINAX complete

#### Ultra-performance floor stripper

**Extremely powerful | Fast-acting | No rinsing**

Removes all types of polymer films. Ideally used in the system with LONGLIFE complete. Effectively removes stubborn floor polish films, including on over-treated floors. Can also be used on alkali-sensitive floors. Saves time and resources because rinsing and neutralizing are not required. Certified, with Austrian environmental seal.

**712655 – 5 l CANISTER**

### LINAX stripper

#### Universal floor stripper

**All-purpose | Safe use | Cost-efficient**

Universal cleaner with exceptional environmental characteristics. Safe use, suitable on all alkali-sensitive floor coverings. Ideal when used in system with LONGLIFE polish; easily removes multiple layers of LONGLIFE polish polymer coatings. LINAX stripper works without eco-toxic ingredients (phosphates, EDTA, NATA, fragrances, dyes).

**712515 – 5 l CANISTER**

# Building Care

## Deep Cleaning and Care

### All-purpose and Deep Cleaners

#### TANEX allround

##### 4 in 1 power cleaner

**Versatile | Excellent wetting properties | Powerful**

TANEX allround is a high-wetting and slightly alkaline all-purpose deep cleaner for cleaning all waterproof floors and surfaces. The reliable 4-in-1 multi-talent works on heavily soiled surfaces as a maintenance or deep cleaner, final cleaner prior to hand-over or top stripper. Suitable for use with floor scrubbers.

**713327 – 1 l BOTTLE | 713328 – 5 l CANISTER**

DE/020/385

### Scouring Creams

#### CREAM cleaner

##### Scouring cream

**Powerful cleaning | Material friendly | Surfactants made of up to 75% European rapeseed oil**

Ecological scouring cream with lemon scent for a variety of surfaces, including those in sanitary areas. Powerful cleaning with optimized very fine marble dust. Quickly removes stubborn residues and hardened limescale deposits without scratching the surface.

**715776 – 500 ml BOTTLE**

DE/020/381

#### CREAM lemon

##### Scouring cream

**Powerful cleaning | Material friendly | Surfactants made of up to 75% European rapeseed oil**

Ecological scouring cream with lemon scent for a variety of surfaces, including those in sanitary areas. Powerful cleaning with optimized very fine marble dust. Quickly removes stubborn residues and hardened limescale deposits without scratching the surface.

**715798 – 500 ml BOTTLE**

DE/020/381

## Deep Cleaners in Quick & Easy system, Ready-to-use deep Cleaners

### TANEX performa QUICK&EASY

#### Power cleaner

##### Powerful | Low residue | Economical

Part of the Quick & Easy portable dosing system, TANEX performa Quick&Easy combines outstanding performance with minimum effort and low usage costs. With no CLP-classified hazardous ingredients, the product ensures maximum user safety. Works quickly to remove stubborn stains of many different types. Low residue formation. Maintains the original appearance of the surface. Leaves behind a pleasant scent.
